New Zealand's Outdoor
Fireplace Experts

OUTDOOR FIRE

Hudson™

Sharp, tidy, minimalistic. The Hudson is a perfect fireplace for those with a more compact outdoor entertaining area, or for those seeking a fireplace that creates a more intimate setting.

Like many great designs the Hudson's simplicity speaks volumes. Without being over the top the Hudson still manages to draw your eye, whilst the warmth draws in great conversation and long, memorable evenings.

What's In a Name? Named for Henry Hudson, the famous English explorer after which the Hudson river in New York is named.

Dimensions: 2600h x 1390w x 650d

Weight: 1655kg

Material: Lightweight fibre reinforced concrete

Hudson package includes:

- 1 x Prefabricated Hudson shell (1550kg)
- 1 x 6mm double-skinned steel firebox (100kg)
- 1 x Stainless steel cooking grill (5kg)

OUTDOOR FIRE

Douglas™

Bring some heritage into your home. The Douglas is stylish, traditional and contemporary all at once. The finish you select can turn this fireplace from a country centrepiece to a contemporary masterpiece.

The traditional look of the Douglas is warm and inviting, relaxing your guests in no time. Impress your friends with freshly roasted delicacies served straight from the fire or simply enjoy a glass of wine watching the flames dance late into the night.

Each fireplace is named after a famous explorer to represent the sharing of stories typical of adventurers around a fireplace.

What's In a Name? Charlie Douglas was a New Zealand born explorer instrumental in mapping the West coast of the South Island.

Dimensions: 2600h x 1390w x 650d

Weight: 1305kg

Material: Lightweight fibre reinforced concrete

Douglas package includes:

- 1 x Prefabricated Douglas shell (1200kg)
- 1 x 6mm double-skinned steel firebox (100kg)
- 1 x Stainless steel cooking grill (5kg)

OUTDOOR FIRE

Mini Burton™

We had so many people who loved the Burton design but needed it in a smaller size, that we had to launch the Mini Burton.

The same great look, sleek and modern, but scaled down, the Mini Burton fits into any space and lends itself to so many styles of finishing. This modern-looking fireplace gives a contemporary finish to any outdoor space, the optional metal woodbox surround gives the Mini Burton an ever so slight hint of ruggedness.

What's In a Name? Charles R. Burton's sense of adventure was not only expemplified in his participation in the Transglobe expedition but also in his career choice serving in numerous overseas countries with the British SAS.

Dimensions: 2600h x 1400w x 650d
Weight: 1115kg
Material: Lightweight fibre reinforced concrete

Mni-Burton package includes:
 1 x Prefabricated Mini-Burton shell (1000kg)
 1 x 6mm double-skinned steel firebox (100kg)
 1 x Black stainless steel flue (10kg)
 1 x Stainless steel cooking grill (5kg)

OUTDOOR FIRE

Burton™

Sometimes bigger is just better.

The Burton refuses to be ignored. People will be drawn to its larger firebox and kept cosy as it crackles and glows. The Burton is a statement piece, and a commanding presence regardless of its surroundings.

Expect great times. Expect compliments. And when guests reluctantly leave, expect them to ask for a reunion soon.

What's In a Name? Charles R. Burton was a British explorer known for his part in the Transglobe Expedition to circumnavigate the globe from pole to pole. He was the only member of the team to accompany the expeditions's leader, Sir Ranulph Fiennes, on the entire route.

Dimensions: 2850h x 1800w x 700d
Weight: 1570kg
Material: Light weight fibre reinforced concrete, steel flue

Burton package includes:
 1 x Prefabricated Burton shell (1400kg)
 1 x 6mm double-skinned steel firebox (150kg)
 1 x Black stainless steel flue (15kg)
 1 x Stainless steel cooking grill (5kg)

OUTDOOR FIRE

Accessories

Gas Firebox

A hassle free option - No matches, firewood or paper. Available in LPG or Natural Gas.

Stainless Cap

Prevent rain from going down the chimney with a stainless steel cap.

Wood Boxes

Create a stunning effect with these wood boxes. Made from Glassfibre Reinforced Concrete (GRC) or corton steel (Burton & Mini-Burton).

Hearth

The hearth simply bolts on to the front of the fire. Choose from GRC, polished concrete, or exposed aggregate.

Stainless Surround

Give your fire a superior finish with an optional Stainless Steel fire surround. Replaces the black steel surround.

Stainless Door

Protects your fireplace while not in use and provides a very classy look!

Chimney Extension

400mm concrete extension section.

Mesh Door

Great for stopping any ash from falling out of the fireplace and protection from the elements.

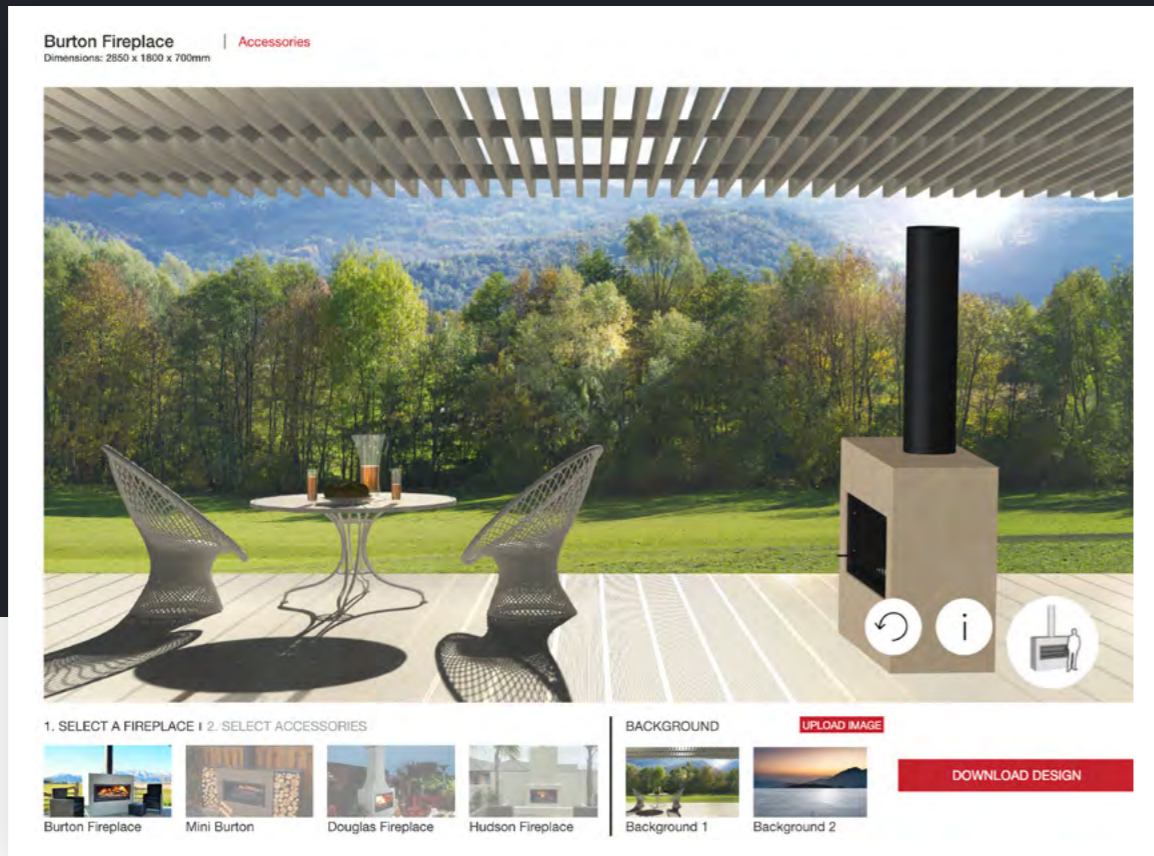

Anti-downdraft Cowl

Helps the fire draw if there is potential for down draft winds

"Our new out-door fireplace has exceeded our expectations. From the time we started the planning process, the team at Trendz Outdoors New Plymouth have been amazing. They helped us with choosing the right fireplace for our needs and provided hassle free transportation and installation."

Antonia and Hayden

OUTDOOR FIRE

Design yours

We've made it really easy for you to see what a Trendz outdoor fire would look like at your home with our new fireplace design tool.

Visit trendzoutdoors.co.nz and follow the easy steps to see your vision come to life!

Note All fireplaces are delivered as a concrete shell. You can choose the finish of your dreams and use local specialists to clad, render or paint your fireplace.

- Step 1 Upload a photo of your section/garden.
- Step 2 Arrange your dream fireplace where you're thinking about having it.
- Step 3 Add and remove accessories to achieve your dream look.
- Step 4 Download your design or share with others

OUTDOOR FIRE

Installation

There are just six simple steps to install a Trendz one piece outdoor fireplace:

Step 1

Contract out or DIY a concrete pad for the fireplace to sit on.

Step 2

Trendz delivers the fireplace to a depot. A Hiab truck is required to bring the fireplace to your site and place the fireplace onto your concrete pad.

Step 3

Fill the inside of your fireplace from the bottom up to the opening with concrete.

Step 4

Your fireplace comes bare concrete. Attach accessories, then plaster or clad.

Step 5

Assemble the steel firebox

Step 6

Enjoy!

All Trendz Outdoor Fires come with a stainless steel cooking grill that enables you to barbecue, roast or even cook pizzas.

Cooking

Why limit entertaining outdoors to summer evenings? A Trendz Outdoor Fire allows you to keep warm and cook outside even on a cool night. Your guests not only enjoy the warmth of an open fire, but the atmosphere and ambience it creates.

Pizza Ovens

Bambino Elite™

The Trendz Bambino Elite is the real deal, with components of the highest quality. It boasts a refractory brick floor, stainless steel flue and sits on a strong wrought iron stand. The front of the oven also has a granite benchtop and storage shelf below.

Grande™

The Trendz Grande is the big brother to the Bambino Elite. It has the same great features but in a much bigger package!

"The service we received from Trendzoutdoors was just exceptional, they're so friendly & professional. Already we've had so many memorable nights with dear friends sharing stories and drinking wine next to the warmth of the fire."
